WORK EXPERIENCE

Mobile & Web Developer

Al-Ahliyya Amman University (AAU)

04/2021 - Present

Amman, Jordan

Al-Ahliyya Amman University is located in Amman, Jordan. Founded in 1990, it was the first private university in Jordan.

- Building and published mobile app called [AAU Portal] for both android and ios OS.
- [AAU Portal] app was created to serve the faculty members and members of the administrative staff working at the university and to facilitate them to follow up on their requests and accomplish many services that save them time and effort such as submitting requests for vacation, leaving, view payroll and many other important things.
- Play store link for AAU Portal App or you can type AAU Portal in the search
- App store link for AAU Portal App or you can type AAU Portal in the search
- Building two apps that served [Deans Council] for viewing meeting minutes instead of paper.
- Creating web app used by secretary for uploading important generalizations.

PERSONAL PROJECTS

عطا (11/2021 - 01/2022)

- A commercial mobile app build for both android and ios. the application came to serve people and make it easier for them to purchase products such as chips, chocolate, drinks and candies through it, and the order is delivered to them directly.
